

LIFTING CAPACITY WITH EXTENDED COUNTERWEIGHT

With SansOne 100 safety is guaranteed: the low profile of the hood, the two cameras, the 12" touch screen display, showing machine and engine parameters in real time and the Swivel Seat give the driver a 360 degrees visibility, total control and best confort.

The **anti-tipping system** gives great stability to the whole machine. Additional benefits come from the position of the radiator, placed laterally and from the oil exchanger, integrated into **extendable counterweight** frame.
