## **LAURINI** SETTANTA PIPELINER

EQUIPPED  
WITH  **DECKHAND**<sup>®</sup>

- Full 360° reach and solid stability from a smart, variable-gauge hydraulic undercarriage
- High-rise cab gives a clear, commanding view for loading, unloading, and stockpiling
- Integrated **DECKHAND**<sup>®</sup> system delivers total control—meaning safer, faster pipe handling in any condition
- Compact frame, heavy-lift power—up to 25% more lift capacity than similar-sized excavators
- Quick-change front end swaps boom and stick in seconds with full electronic and hydraulic connection
- Purpose-built to safely lift, place, and handle pipe with total control
